

Gujarat University
Center for Distance and Online Education

Minimum Technical Requirements for Admission

- Students seeking admission to programmes offered by the Centre for Distance and Online Education (CDOE), Gujarat University, are required to have access to the following technological facilities to participate effectively in online learning, academic activities, and final examinations, wherever applicable.

Sr. No.	Technical Requirement	Minimum Requirements and Purpose
1	Laptop/Desktop Computer with Camera and Microphone	A Windows-based laptop or desktop computer equipped with a functional built-in or external camera and microphone, with adequate processing capacity to access the online learning platform, prepare assignments, complete academic tasks, and appear for final examinations, wherever applicable.
2	Smartphone	An Android smartphone or iPhone to access academic notifications, digital learning resources, communication platforms, university-related services, and other academic facilities.
3	Reliable Internet Connectivity and Stable Electricity Supply	A reliable broadband or mobile internet connection and an uninterrupted electricity supply, particularly during online classes, academic activities, and final examinations, wherever applicable.
4	Active Email Address and Mobile Number	A valid email address and an active mobile number for admission-related communication, account registration, verification, and receipt of official university notifications.
5	Basic Digital Literacy	Basic proficiency in operating a computer or smartphone, browsing the internet, using email, downloading and uploading documents, and accessing online learning platforms.

Note: -

- Students are advised to ensure the availability of the above-mentioned technological facilities before seeking admission to facilitate effective participation in the University's distance and online learning programmes and to meet the technical requirements for online examinations, wherever applicable.
